**DETAILED ACTION**

1. Applicant's arguments see pages 3-12 of Appeal Brief, filed 9/5/2004, with respect to claims 1-21 have been fully considered and are persuasive. The rejection of claims 1-21 has been withdrawn.

***REASON(S) FOR ALLOWANCE***

2. Claims 1-21 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicants have presented examples, which show that "predetermined depth" and "target depth" are standard terms of the art and which one skilled in the art would clearly understand, especially viewed in light of the art. Also no prior art teaches nor the combination of the prior art renders it obvious in terminating a first etch when a first layer has been etched to a predetermined depth which is less than the target depth, in a method for facet etching a semiconductor device to a target depth, along with the other limitations of claims 1-10 and in a method for improving dielectric step coverage, along with the other limitations of claims 11-21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynette T. Umez-Eronini whose telephone number is 571-272-1470. The examiner is normally unavailable on the First Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine Norton can be reached on 571-272-1465.
